WELCOME

DEAR COLLEAGUES

It gives us great pleasure to welcome you on the **3rd Bologna-Budapest Spine Meeting on Tumor and Osteoporosis**. The goal of the meeting is to bring together top professionals in the field of spine tumor surgery for the exchange of ideas and gathering of information regarding best surgical practices, latest trends and innovations.

The National Center for Spinal Disorders celebrating its 20th year this year is the host of the event for the third time offering over 50 lectures. Attendees are representing several countries from all around the World.

The principal topic of discussion is the treatment of spinal disorders in the aging population with regard to special risk factors of spinal surgery in the over 65 year population. Lectures are also held concerning primary and metastatic tumor surgery involving the spine.

Welcome you in Budapest!
